

VTRONIX

Q-338-F

Panel description

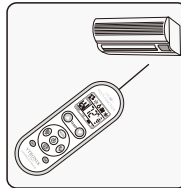

User's Guide

Original Remote Control has no LCD display. In this case, Q-338 display is deactivated. Other functions are OK.

1. Power on your Air-conditioner by hand then point the controller directly at your Air-Conditioner.

Notice: When the Air-Conditioner can turn ON , OFF or beep, the code displayed on LCD is the proper code of your Air-conditioner.

2. Hold the "SET" button until the code flashes on the mode window. Then repeat to press "SET" button until the air-conditioner can turn ON or OFF. Then press "OK" button. Setup is finished.

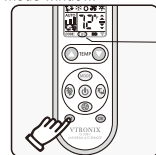

B. Manual setup steps

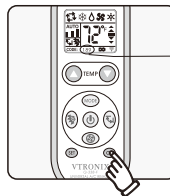

1. Refer the CODE FORM and find the code number standing for the brand. And power on your Air-conditioner by hand. For example: INYCIN

BRAND	CODE
INYCIN	188~190;

2. Hold the "SET" button (about 5 seconds) until the code flashes on the window. Then repeat to press "SET" button until the code you want flashing on the mode window.

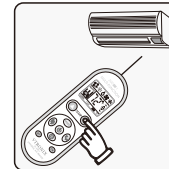

3. Press "OK" button, the mode code will stop flashing.

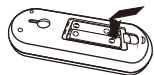

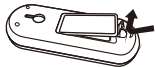

the mode code will stop flashing.

4. Check whether keys on the remote control work normally. If not, repeat steps 2-4 until a code suitable for the Air-conditioner is found.

How to install the batteries

1. Slide open the battery compartment then insert two size AAA batteries.
2. Close the battery compartment (Signal symbol "📶" will show on the operation screen)

Setting up steps

A. Auto-Searching steps:

Special Instructions

- Ensure that your Air-conditioner receiver is in working order. If your Air-conditioner is not receiving it properly, it will not be able to function with this remote control.
- Using the remote controller will not increase the functions of your Air-conditioner. For example: if your Air-conditioner does not have lower direction function, the lower direction button on this controller will not function with your Air-conditioner.
- Do not mix different type of batteries together.
- If the electrolyte inside the battery compartment should leak, wipe the contaminated area of the battery compartment with a dry cloth and replace the old batteries with new ones.
- To prevent the electrolyte from leaking, remove the batteries when you plan not to use the controller for a long period of time.
